Lola Young

Ecuador Real Estate

I recently returned from Ecuador where I spent time in the mountains and on the beach. Part of my trip was in Cotacachi Ecuador, I also traveled to Salinas and Manta. The beach area in San Clemente is very beautiful and the people there are so nice. San Clemente is where we are getting ready to build Condo's. We are in the process of deciding on an Architect and having Renderings completed. Then we can start breaking ground on the Beach Front Condo's.

Another area we are considering is a place near Salinas. Salinas looks like a mini Miami, the beach there is lovely, but it is crowded. The beach property we are considering purchasing is 15-20 minutes from Salinas, but the beach is not over crowded like Salinas. The great part is you're only a few minutes from the Malls and Groceries Stores and other shopping. Only 1.5 hours from Guayaquill, the largest city in Ecuador.

The Real Estate Project Jauha Pacha in Cotacachi is being completed on time. On the first 4 condo they are adding the finishing touches. The Fireplaces are complete, and they are picking out paint colors and tiles. The Windows and Doors are going to be added as soon as the floor tiles are laid. They are working hard on finishing the second building with 4 more Condo's. They have laid the foundation on the third building. We have one top floor condo left, and two ground floor condos available out of the three we are in the process of building, so if you have been waiting to pick one of these condos now is a great time, or you may have to wait until more are built.

We will be having our **Real Estate Tour** in March. Register now and come have fun with us. The Tour will include the showing of a variety of properties in addition to our own. To sign up click the link below for more tour information.
