

Ecuador Real Estate

By
Lola Young

I arrived in Cotacachi a week ago today; I couldn't wait to see the progress being made on the Condos here in Cotacachi, Ecuador. The Real estate development Project is right on schedule. Not only has the second story on the first Condo been completed, but they are in the process of putting on the roof. I went through each room to see what the views looked like. Each room has its own spectacular views of the Andean Mountains. Facing the front of the project we have a beautiful view of Imbaburra and Cotacachi. To our rear we have the volcano "Cotacachi" (inactive). It looks like a picture on a post card. I couldn't decide which ones had the best view, As I wandered through I am happy to report it was impossible to pick one over another as each condo offers magnificent panoramas. I thought to myself what a magnificent Real Estate Condo Project being developed right here in the small town of Cotacachi, Ecuador nestled between the Andes mountains. The views are truly breathtaking. It is extremely gratifying to be able to offer our readers such a wonderful opportunity, to enjoy their retirement in such a beautiful location, with the amenities they are used to in the U.S., but at a fraction of the price.

It has been raining here in Cotacachi, but most of the rain has been at night, so it hasn't slowed the workers down much, they are also working on Saturdays to get as much completed as possible before the seasonal rains come in.

The Second Condo Building is coming along well also, they are working on the first floors and after they are completed, things will go pretty fast. Also we have broken ground on the third Condo Real Estate Building. I have picked out the Condo that I want for my home. It is in the second Condo Building that is currently being built. This is where I will live and spend most of my time. So I am pushing the workers really hard to get this Condo completed, before the rainy season.

We only have two Condos available out of the first two buildings that are being built. They are both on the ground floor. For all you new readers the Condos are quadplexes. There are two Condos upstairs and two Condos downstairs. We are selling them faster than we can get them built. People know a great deal when they see it. I am looking forward to getting started on our community building; I am hoping that we can start this in the spring. It will house a multitude of amenities. It will be a great place to have social gatherings.

We are having a Real Estate Tour this January, come have a vacation in the beautiful Ecuadorian Andes Mountains, and take a tour of our Real Estate Development Project. Our lovely Condos start at \$85,000. We offer financing with 25% down. If you purchase a condo we will deduct your Tour fee from the purchase price. We have limited space so book now. Go to our website at: www.ecuadorrealestatesales.com and click on Tours for more info. Or e-mail me info@ecuadorrealestatesales.com
